James A. Capp, Chief
Georgia Environmental Protection Division
Water Protection Branch
2 Martin Luther King Jr. Drive
Suite 1152 East
Atlanta, Georgia 30334

SUBJECT: Approval of the State of Georgia's 2014 303(d) List Submittal

Dear Mr. Capp:

The U.S. Environmental Protection Agency, Region 4, has completed its review of Georgia Environmental Protection Division's Final 2014 Clean Water Act (CWA) Section 303(d) list of water quality limited segments. The EPA has determined that each of the water quality limited segments still requiring Total Maximum Daily Loads identified on the State's 2014 list meets the requirements of the CWA Section 303(d) and its implementing regulations, 40 CFR 130.7. The EPA hereby approves the State of Georgia's decision to include each of the waters designated by the State in its 2014 303(d) list. Enclosed for your information is the accompanying decision document for this approval action.

If you have questions concerning this matter, please feel free to contact me at (404) 562-9345 or Ms. Gracy R. Danois, Chief, Assessment, Listing, and TMDL Section at 562-9119.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Giattina", is positioned above the printed name of the signatory.

James D. Giattina
Director
Water Protection Division
